Below is a list of Private Equity funds that have offices in London and have a significant European presence. We broke down the list in "generalist" funds that cover all sectors across different geographies, "sector specialists", "specific region-focused" funds and finally Private Equity funds within investment banks. Note that the list below covers only the major funds and doesn't include venture capital funds and other Private Equity funds that have less than £500 million of assets under management.
